- Eliminate forced upgrades yet preserve the flexibility to upgrade when you see clear ROI
- Fund innovation and drive business growth with savings of up to 90 percent of your total maintenance costs

Gain Control of Your SAP Roadmap and Your IT Budget

Product Support Overview

Rimini Street replaces SAP support for SAP® Business Suite products delivering significant annual cost savings and the flexibility to upgrade or move to the cloud when there's clear business value. With a seasoned team of experts, Rimini Street provides world-class support for SAP enterprise applications, including Enterprise Resource Planning (ERP), Customer Relationship Management (CRM), Supply Chain Management (SCM), Supplier Relationship Management (SRM), Product Lifecycle Management (PLM) as well as Business Warehouse (BW) 3.5.

Business Challenges

SAP is shifting away from its core business suite software model. Most clients have already licensed more functionality than they are using and are not yet comfortable with upgrade options. Also as clients look to evolve and grow their own businesses, they are often confronted with IT budgets dominated by maintenance. Licensees who are happy with their systems can continue to use their current SAP products by switching to independent support. They will also enjoy a minimum of 50 percent savings off their annual vendor maintenance fee, enabling a reinvestment of those funds into new IT programs.

The Rimini Street Solution

Turning the multi-tiered vendor support model upside down, Rimini Street goes well beyond providing standard break/fix assistance. Each client receives personalized service from a senior-level Primary Support Engineer (PSE). In this way, clients have direct access to an expert with their first call. PSEs are available 24 hours a day, 7 days a week, 365 days a year anywhere in the world with an average response time of less than 5 minutes for critical issues. Clients benefit from software fixes and updates, support for customized code, and a team of experts who focus on interoperability challenges, roadmap planning and holistic security.

“Rimini Street is significantly reducing the annual operating cost of our SAP system, providing us focused, personalized support and operating like an extension of our internal team.”

Jeff Rishel,
Vice President of IT
Graham Packaging
