

| Service Features | Details | Benefits |
|--|--|--|
| Assigned Primary Support Engineer (PSE) | Rimini Street emphasizes full service over self-service. You will be assigned a PSE with an average of at least 15 years of experience, backed by a team of functional and technical experts that ensures prompt resolution of any issue. | <ul style="list-style-type: none"> Enjoy direct access to expert-level engineering support. Deal with support staff who display a detailed understanding of your environments and operational needs. Get support from highly experienced engineers who understand your business processes, not just the software. Avoid endless escalations and having your issue “thrown over the fence.” |
| 24/7/365 Support Availability | The Rimini Street global support team is staffed and ready 24 hours a day, 7 days a week, 365 days a year. | <ul style="list-style-type: none"> Get assistance whenever you need it. |
| Guaranteed 15-Minute Response Time for Production-Critical Issues | Rimini Street Support guarantees a call-back in less than 15 minutes from the time of the request; average actual response time to a client inquiry is less than five minutes. | <ul style="list-style-type: none"> Faster response time increases time to resolution. Response from highly experienced engineers who can work your issue immediately. Faster response levels reduce system and human resource downtime. Reduce cost of system outages. |
| Global Support Coverage | Rimini Street support services are provided worldwide. Rimini Street currently provides support to customers with operations in over 90 countries. | <ul style="list-style-type: none"> Get assistance whenever you need it. |
| Global Tax, Legal and Regulatory Updates | Rates and regulations related to software applications for global payroll, accounting, fixed assets, and supply chain management are constantly changing. Rimini Street Support keeps your applications updated with the latest global tax, legal and regulatory changes that are critical to ensuring your business operations are always accurate and compliant. | <ul style="list-style-type: none"> Maintain reporting compliance. Rimini Street has the capability to provide updates for nearly 200 countries for regulatory changes. Rimini Street provides updates regardless of the age of your software. Patent pending process. |
| Localization Support | Multiple country-specific localizations can make implementing and supporting a global system challenging. Rimini Street support engineers provide country-level support for software configuration, process, language and compliance issues. | <ul style="list-style-type: none"> Support engineers with specific business process knowledge for more than 90 countries. Tax, legal and regulatory analysts cover nearly 200 countries. |
| Issue Resolution and Bug Fixes for Enterprise Applications | The vendor typically bundles patches and updates with hundreds of unrelated fixes, forcing you to implement and test all the included patches just to deploy the one fix you need. Rimini Street support eliminates this overhead cost and risk. Experienced engineers develop fixes that directly address your specific issues, enabling you to quickly deploy just the fixes you need. | <ul style="list-style-type: none"> Reduce your time to production by not having to “retrofit” bundled patches and updates. Reduce the likelihood of bundled patches and updates introducing new issues. Reduce the amount of extraneous testing caused by bundled patches and fixes. |

Rimini Street Support Program Features

| Service Features | Details | Benefits |
|---|--|---|
| Issue Resolution and Bug Fixes for Your Customizations | Rimini Street offers customization support at no extra charge. Software vendors, in contrast, do not include customization support in their standard support programs. This forces you to hire external consultants or add internal resources to support mission-critical customized code. In contrast, Rimini Street engineers resolve issues and develop fixes that directly address your customizations. | <ul style="list-style-type: none">■ Get the support for customizations you need but never received from the vendor.■ Reduce your time to resolution for custom code issues.■ Reallocate your maintenance programmers to revenue- or value-enhancing projects. |
| Operational Support | Rimini Street's engineers provide support for the full range of build and deployment issues as well as configuration, security, infrastructure, platform, database and change management issues. In addition, Rimini Street engineers provide operational best practices advice to keep your systems up and your operational costs down. | <ul style="list-style-type: none">■ Keep your infrastructure running at peak performance.■ Reduce downtime.■ Optimize your operational costs.■ Reduce issues with change management compliance. |
| Configuration, Setup and Process Assistance | Organizations need to quickly and effectively adapt to constantly changing business practices. Rimini Street engineers with an average of 15 years of software and business process experience offer best practice and software configuration advice. | <ul style="list-style-type: none">■ Fully understand the full range of options your software applications give you. Gain knowledge from support engineers who have "been there, done that."■ Gain knowledge of best practices. |
| Upgrade and Migration Support | When you are ready to upgrade, Rimini Street engineers provide resolutions to issues that may arise during an upgrade, tools release or migration. | <ul style="list-style-type: none">■ Protect your initial software investment.■ Upgrade on your timetable, not your software vendor's. |
| Software Archiving Services | Rimini Street provides archiving guidance to help you preserve your investment. We'll scope your archive to contain appropriate upgrades, updates, patches and documentation. Archiving the releases you've licensed, while not required, will allow you to upgrade based on your business needs. | <ul style="list-style-type: none">■ Software archiving protects your original investment.■ Software archiving protects your right to upgrade.■ Upgrade on your schedule, not the vendor's. |
| Account Management | <p>As part of Rimini Street's annual Support Agreement, every client is provided an Account Manager. Rimini Street Account Managers engage during the onboarding process and through the life of the contract to ensure a smooth transition to Rimini Street and to help clients maximize their return on existing software investments.</p> <p>Rimini Street Account Managers focus on client satisfaction and are accountable for client retention and survey results.</p> | <ul style="list-style-type: none">■ Enjoy a single point of contact into Rimini Street for non-technical issues including strategy-, business-, contract-, or escalation-related matters.■ Receive expert guidance to help you successfully navigate complex system strategies and extend the life of your mature technology platform.■ Take advantage of personalized services complemented with an understanding of your strategic goals. |

Rimini Street's ultra-responsive independent support is available at 50 percent annual cost savings compared to your software vendor. | <ul style="list-style-type: none">Avoid the vendor's 10-20 percent extended and sustaining support penalties.Understand and easily predict your true support expenditures.Redirect your cost savings to value-enhancing projects. |
| At Least 15 Years of Support for Your Existing Application Release | With Rimini Street support you can run your highly functional, stable release for 15 years or more, even if customized to meet your unique needs. | <ul style="list-style-type: none">Eliminate costly forced upgrades; upgrade only if and when you feel there is positive value.Enjoy enhanced ROI for your enterprise applications: independent support adds value to your initial software investment.Continue to receive tax, legal and regulatory compliancy updates even after the vendor discontinues support for your application release. |
| Interoperability Analysis and Support | Interoperability support includes strategic guidance to prepare for potential infrastructure changes; assistance with verifying certification on new platforms; and the ability to resolve interoperability conflicts. Rimini Street support engineers diagnose interoperability problems and recommend solutions. | <ul style="list-style-type: none">Attain maximum return on your investment in your enterprise software.Facilitate collaboration with other software and hardware vendors.Eliminate finger-pointing among vendors. |
| Installation & Upgrade Process Support | If business needs require an upgrade, Rimini Street provides guidance on the necessary steps for installing and upgrading the software, as well as techniques to avoid conflicts with other layers of the technology stack. We don't perform the upgrade for you, but we do provide full-featured support before, during and after your upgrade. | <ul style="list-style-type: none">Receive guidance on tuning and configuration of your upgraded software components.Get advice on how to migrate customizations when upgrading. |
| Performance Support | Rimini Street's experts understand the nuances in the technology stack that can affect database performance, and provide the necessary fixes to keep applications humming. | <ul style="list-style-type: none">Get help with database tuning.Receive detailed recommendations for incorporating smart proxy servers that translate between application and browser versions without slowing down performance. |

Rimini Street Support Program Features

| Service Features | Details | Benefits |
|--|--|--|
| Security Advisory Services | Rimini Street helps clients proactively maintain a more secure application while achieving a 50 percent cost savings over the ERP vendor's application-centric support programs. In fact, Rimini Street's technical and architectural security team often pinpoints and circumvents vulnerabilities months and even years before they are discovered and addressed by Oracle or SAP. | <ul style="list-style-type: none">■ Use advisory services on implementing holistic best-practices strategies that address the overall security of corporate, customer and partner data.■ Receive expert guidance on PCI compliance strategies such as decoupling payment information and tokenizing payment data. |
| Device & User Interface Support | Changes involving web browsers and mobile devices often lead to usability issues for ERP applications. Rimini Street experts know how to deep dive into difficult usability issues to keep your business processes running smoothly – even with a dynamic technology stack. | <ul style="list-style-type: none">■ Implement smart proxy servers to support environments with browsers that are incompatible with the HTML messaging being sent by ERP applications.■ Build a virtualized environment that allows your core enterprise application software to remain unchanged, eliminating the need for expensive and time-consuming upgrades. |

About Rimini Street, Inc.

Rimini Street is a global provider of enterprise software products and services, and the leading third-party support provider for Oracle and SAP products. The company has redefined enterprise support services since 2005 with an innovative, award-winning program that enables licensees of IBM, Microsoft, Oracle, SAP and other enterprise software vendors to save up to 90 percent on total support costs. Clients can remain on their current software release without any required upgrades for a minimum of 15 years. Global Fortune 500, midmarket, public sector and other organizations from a broad range of industries rely on Rimini Street as their trusted, third-party support provider.
