

Praveen Sahni leads global service delivery innovation at Rimini Street. In this role, he is responsible for developing innovation strategies and using artificial intelligence, machine learning and big data to build cutting-edge technology platforms.

Mr. Sahni has more than 20 years' experience as the architect of many enterprise innovations and solutions and as a development director and product executive. He came to Rimini Street from Oracle Corporation, where, for more than 15 years he led applications development for both Oracle applications and products acquired by Oracle.

He holds a master of engineering in computer science from Birla Institute of Technologies & Science (BITS) in India. He is an active member of the Association of Computing Machinery (ACM) and the Institute of Electrical and Electronics Engineers (IEEE). He speaks at Silicon Valley meetup groups on topics such as enabling and evaluating innovation projects and strategies. He also authored "Introduction to C-Language," the first book on the topic published in India. He has also published numerous papers and articles on how innovation and technology enablement are transforming the service industry into the fastest- changing industry in the world.

ABOUT RIMINI STREET, INC.

Rimini Street is the leading independent provider of enterprise software support services. The company is redefining enterprise support services with an innovative, award-winning program that enables Oracle and SAP licensees to save up to 90 percent on total support costs over a decade, including saving 50 percent on their annual support fees. Clients can remain on their current software release without any required upgrades or migrations for at least 15 years after switching to Rimini Street. Hundreds of clients, including global, Fortune 500, midmarket, and public sector organizations from across a broad range of industries have selected Rimini Street as their trusted, independent support provider.
