Rimini Street resolves your complex issues, and moves your business forward—so you can focus on strategic outcomes

A new operating model for enterprise software

Since 2005, Rimini Street has helped thousands of organizations drive greater value from their software portfolio through ultra-responsive third-party support and optimization services, unlocking billions of U.S. dollars to reinvest in meaningful innovation and accelerated growth.

This proven methodology to achieve faster time-to-market is called the Rimini Smart Path™.

Tested, trusted and repeated by Fortune Global 100, Fortune 500, midmarket, public sector and government organizations, the Rimini Smart Path is the fastest, surest way to real innovation within existing budgets.

Easy as 1-2-3:

How the Rimini Smart Path works

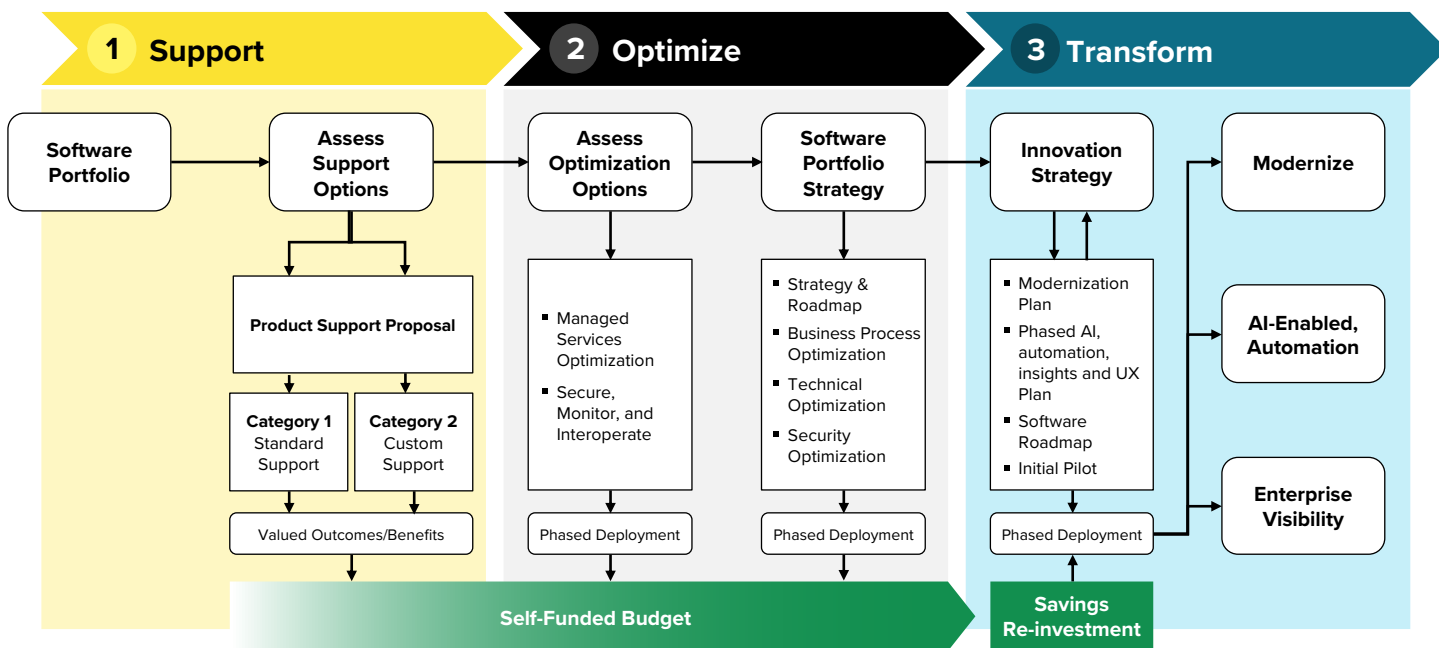

Start with extraordinary support. Rimini Street replaces software vendor annual support with Rimini Support™ for Oracle, SAP, VMware and hundreds of other products to deliver comprehensive third-party support at substantial annual savings — including support for customizations — and is guaranteed for up to 15+ years from day of signing, keeping you secure, compliant and in control.

Optimize your enterprise software investments for enhanced value. Further drive down operating costs and improve business performance with Rimini Street's suite of Rimini Optimize™ services and solutions. From professional and managed services delivered by expert engineers, proactive security with zero-day protection, patented and proprietary interoperability solutions, bespoke project planning and completion and more, Rimini Street bridges today's needs with tomorrow's vision with ease, and without the need to upgrade, migrate or replatform.

Innovate with speed, agility and confidence. With systems stable and teams freed from day-to-day operations, innovate when it's needed most — now — not months or years from today. Rimini Innovate™ is funded by the Support and Optimize steps, empowering you to take on strategic projects such as AI, analytics and automation without increasing overall IT spend. Experience new levels of guaranteed efficiency and operating speed when you add Rimini Agentic UX™ to your existing systems, delivering automation, reduced workflows and transformative capabilities across your entire organization at scale.

How leaders leverage the Rimini Smart Path for competitive advantage and growth

The Rimini Smart Path methodology continues to serve as a winning strategy for thousands of executives across every major industry around the world. The lasting impact of regaining control of the IT roadmap and budget means leaders can make smart decisions that put business needs first and technology second.

Support

The huge cost reductions we've achieved — with zero impact to our company-critical IT operations - have enabled us to invest in the technologies and expertise that will support future ground-breaking innovations.

– **Heegon Kim,**
Head of Department,
Cloud Technology Team,
Hyundai Motor Group

Optimize

Rimini Street was so consistently responsive and proactive, we no longer worried about skills gaps. They have all the bench strength that we need. We have established enormous confidence in leveraging our partnership with Rimini Street to solve our problems.

– **Theresa Szoke**
VP of Information Technology,
Savant Systems, Inc.

Innovate

Without Rimini Street, a ton of our projects would still be stuck at the proposal stage. Instead, they've allowed us to start executing AI projects and other major tech initiatives that will be fundamental to competing and providing an excellent customer experience going forward.

– **Kevin Khoo**
CIO, Sunway
