

# Find Accommodations for Your Aging Loved Ones

There comes a time when you may need to find new accommodations for your parents or adult loved ones.

Cariloop can help with the heavy lifting in understanding, locating, and financing options that work for you and your family.

A Care Coach can help you:

♥ **Understand Your Options:** Your Care Coach will provide guidance on living arrangements in your area that may work best based on health conditions, preferences, and budget including long-term care, assisted living, memory care, skilled nursing, etc.

♥ **Locate Accommodations:** With in-home care and out-of-home facilities to consider, your Care Coach will research cost, availability, and services provided on your behalf.

♥ **Identify Financial Support:** Affording care can be just as difficult as finding care. Care Coaches will research financial assistance programs, outline insurance cover, and negotiate payment options to offset costs for your family.

## Getting started is easy:

Activate your account or log in at the URL below.

Open a case and connect with a Care Coach for expert help.

Your Care Coach will start working on your case right away!
