

NFP's National Medicare Practice – Core Values and Capabilities

NFP's Medicare advisors offer comprehensive and personalized service for those navigating the intricacies of enrolling in Medicare and selecting a plan that is right for them. Through group educational sessions and individual, personalized consultations, we work to ensure beneficiaries receive the guidance they need to make informed decisions about their healthcare coverage.

Our advisors are all licensed independent insurance agents who specialize in Medicare coverage options. As independent agents, they maintain relationships with a variety of carriers in their market, so beneficiaries always receive independent evaluations. Advisors are focused on recommending the most appropriate Medicare Supplement or Medicare Advantage plan based on their thorough evaluation of the beneficiary's prescriptions, budget, medical providers, travel plans, and overall coverage priorities.

KEY INSIGHT

**Our advisors are all
licensed independent
insurance agents who
specialize in Medicare
coverage options**

Ongoing support from our Medicare advisors ensures that beneficiaries can continuously optimize their coverage as their needs change. This level of commitment provides significant peace of mind, knowing that expert help is always available.

Advisors are focused on recommending the most appropriate Medicare Supplement or Medicare Advantage plan based on their thorough evaluation of the beneficiary's prescriptions, budget, medical providers, travel plans and overall coverage priorities.
