

# Rimini Support™ for Blue Yonder

Premium, ultra-responsive support for mission-critical warehouse, labor and transportation management systems

## KEY BENEFITS

- > Ability to secure and extend the life of existing software investment for 15+ years while maintaining compliance
- > Ultra-responsive support, including support for customizations at no extra charge
- > No pressured upgrades or disruptive migrations to subscription-based cloud products

## SOFTWARE SUPPORTED

Blue Yonder:

- > Warehouse Management (WMS)
- > Warehouse Labor Management (WLM)
- > Transportation Management (TMS)
- > Category Management Suite

## Product support overview

Blue Yonder solutions play a key role in supply chain planning, warehouse management, transportation and retail execution — often operating as always-on systems that underpin inventory accuracy, order fulfillment and revenue-driving operations. These environments are typically highly integrated and extensively tailored to an organization's specific processes and operating models. Maintaining the security, stability and performance of Blue Yonder platforms is essential to sustaining operational efficiency, service levels and business continuity, while also ensuring organizations continue to deliver on the expectations of customers, partners and consumers across B2B and B2C ecosystems. Rimini Support for Blue Yonder delivers a high-touch, ultra-responsive support experience to extend the stability, performance and value of your existing implementation, without pressured upgrades or operational disruption.

## Business challenges

Many Blue Yonder platforms and applications are mature, highly customized and deeply embedded within core supply chain, warehouse, transportation and retail execution workflows. As the software vendor reduces or eliminates support for older versions or encourages cloud-only adoption, organizations face risks of unsupported products, escalating support costs, pressure to upgrade, interoperability challenges, skills gaps and challenges with maintaining customizations. Under these pressures, many organizations find they are running critical Blue Yonder functions with decreasing vendor support quality and increasing operational risk and burden.

## The Rimini Street solution

Rimini Support™ for Blue Yonder includes break/fix support, defect analysis, configuration guidance and operational continuity for production environments.

It redefines enterprise application support by providing:

- **A named Primary Support Engineer (PSE)**  
with deep experience, backed by a global engineering team available 24/7/365
- **10-minute guaranteed response time**  
for critical issues, delivered on average in less than 2 minutes
- **Guaranteed 4-hour resolution<sup>1</sup>**  
of priority tickets with 2-hour update communications
- **Full support for customizations,**  
which often account for the majority of issue volume in complex systems
- **Guaranteed support**  
for your current release for the length of your contract
- **Interoperability support**  
across OS, browsers, email and other technology layers to keep your software versions working in evolving environments — without unnecessary upgrades — and availability of the Rimini Connect™ solution for additional future-proofing
- **Security advisory services,**  
and proactive risk mitigation guidance, plus availability of the Rimini Protect™ solution for advanced security posture improvement
- **Roadmap, architecture and optimization guidance**  
to help you plan an innovation path aligned to your business, not a vendor-dictated upgrade cycle

Rimini Support for Blue Yonder transforms the traditional support model, eliminating tiered escalation and queues with direct access to an expert who manages each issue through to resolution while helping you stay in control of your IT budget and roadmap.

## KEY DIFFERENTIATORS

- > Industry-leading SLAs for responsiveness and case update communications
- > Direct access to experienced engineers with deep domain expertise
- > Included advisory services for licensing, technical and functional roadmaps, cloud, security and interoperability

**4.9/5.0**

Client satisfaction

**< 2 Minutes**

Average response time for critical (P1) and serious (P2) issues

**99.991%**

On-time delivery of case update communications
